

BURLINGTON DOWNTOWN

Placemaking & Partnerships

Connection Corner

Creating Space for the Community.

A small space with a big impact. Giving neighbours a place to pause, connect, and feel welcome.

Building spaces to enjoy.

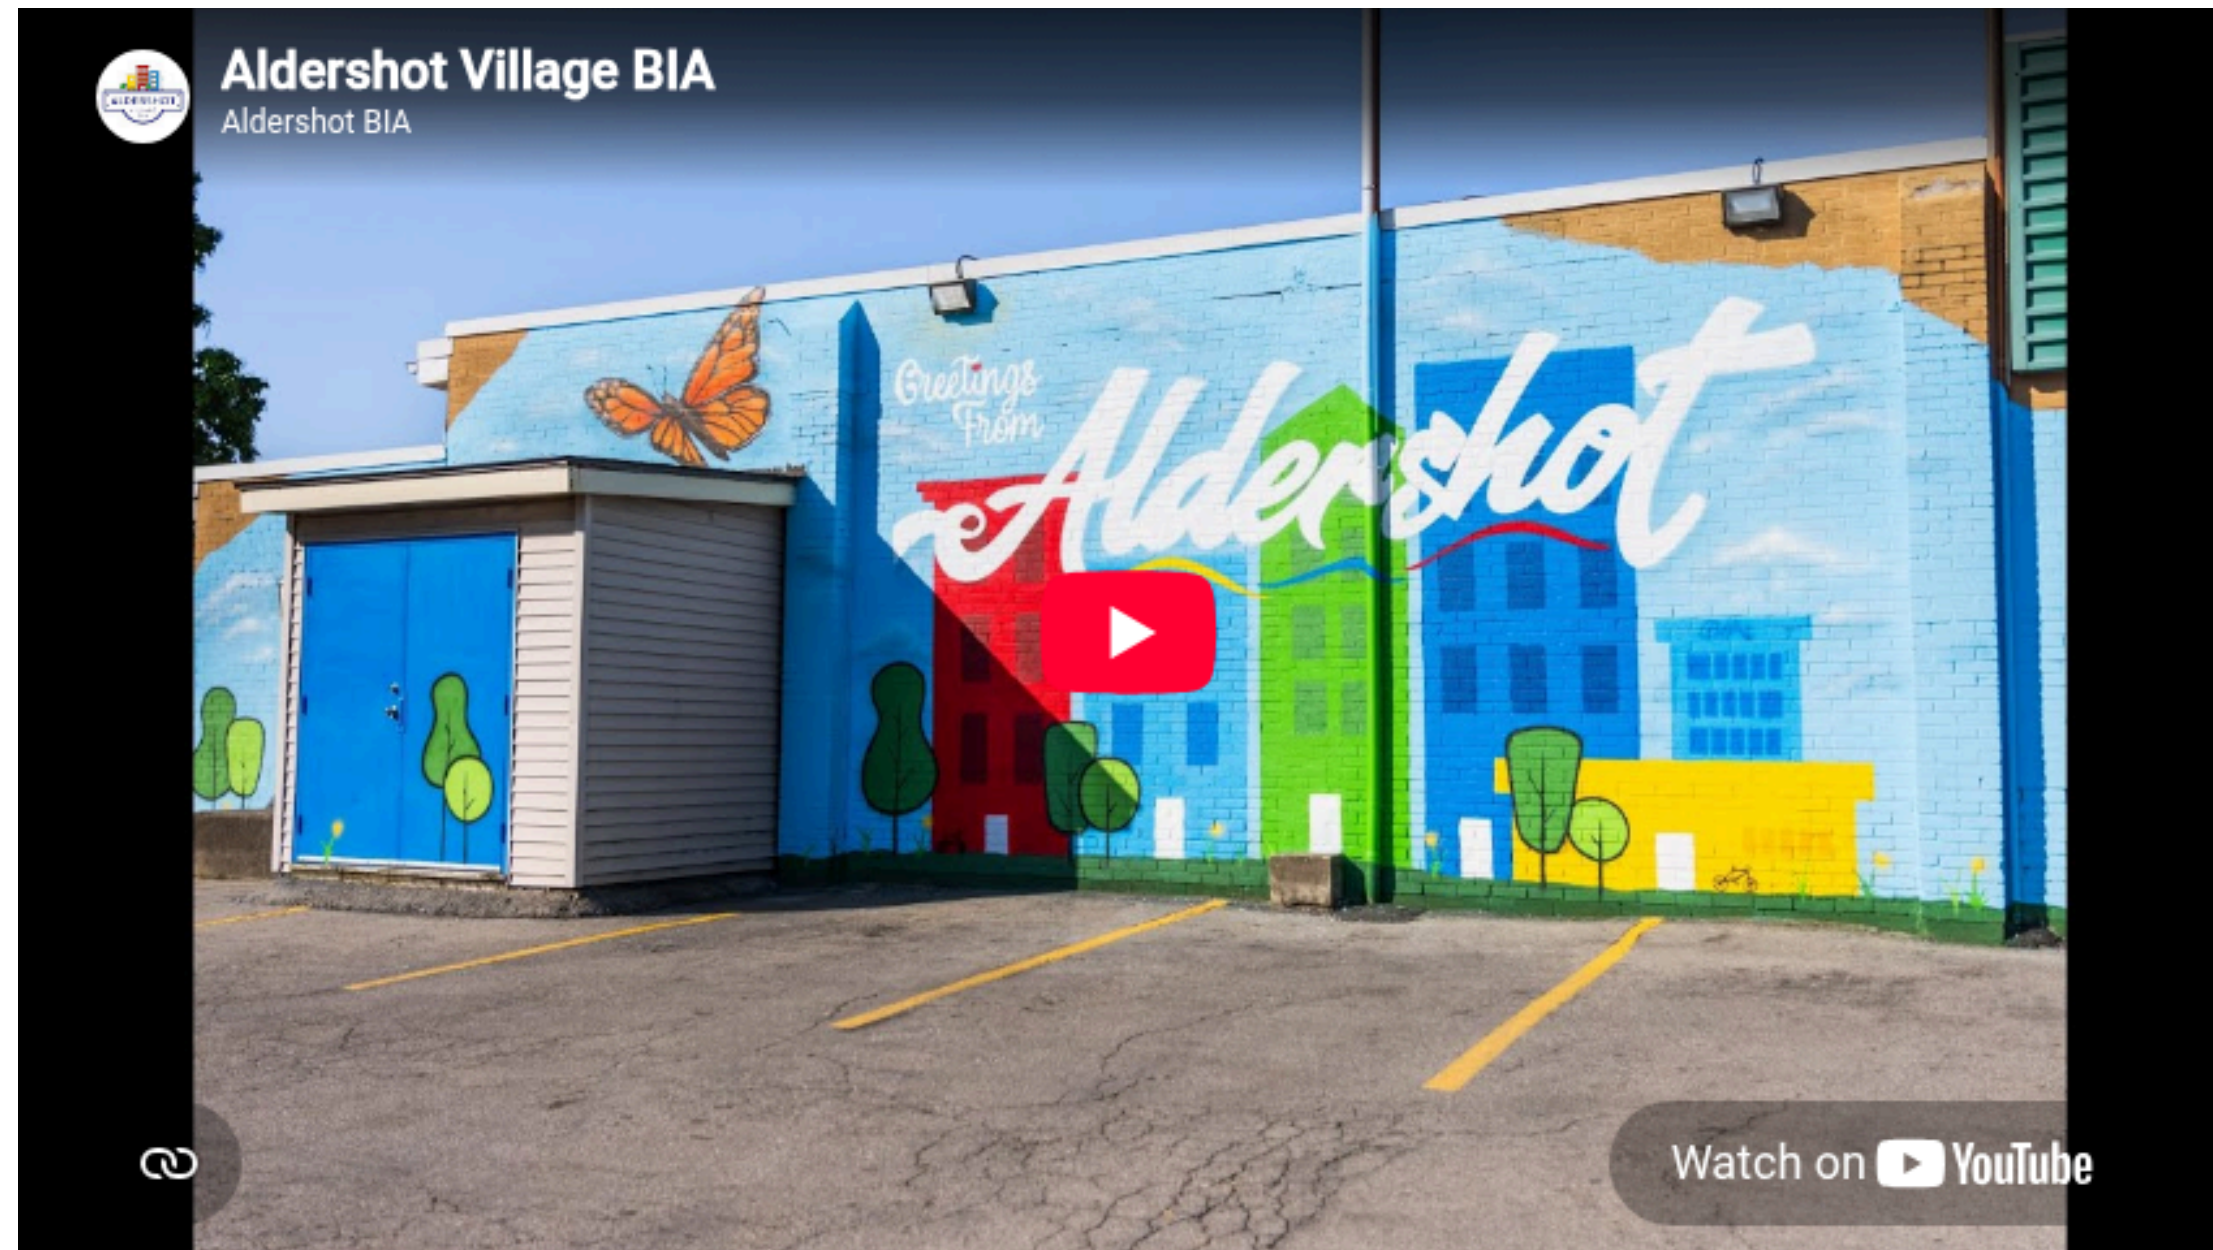

An unused space became a welcoming waterfront gathering place for residents, visitors, cyclists, and families.

Presenting the Fruity Fence.

Public art turned a plain fence into a colourful tribute to Aldershot's farming history and community roots.

Aldershot Born & Raised

Community groups are key.

Strong partnerships happen when we show up, contribute, share ideas, and play the long game.

Collaborate & Connect

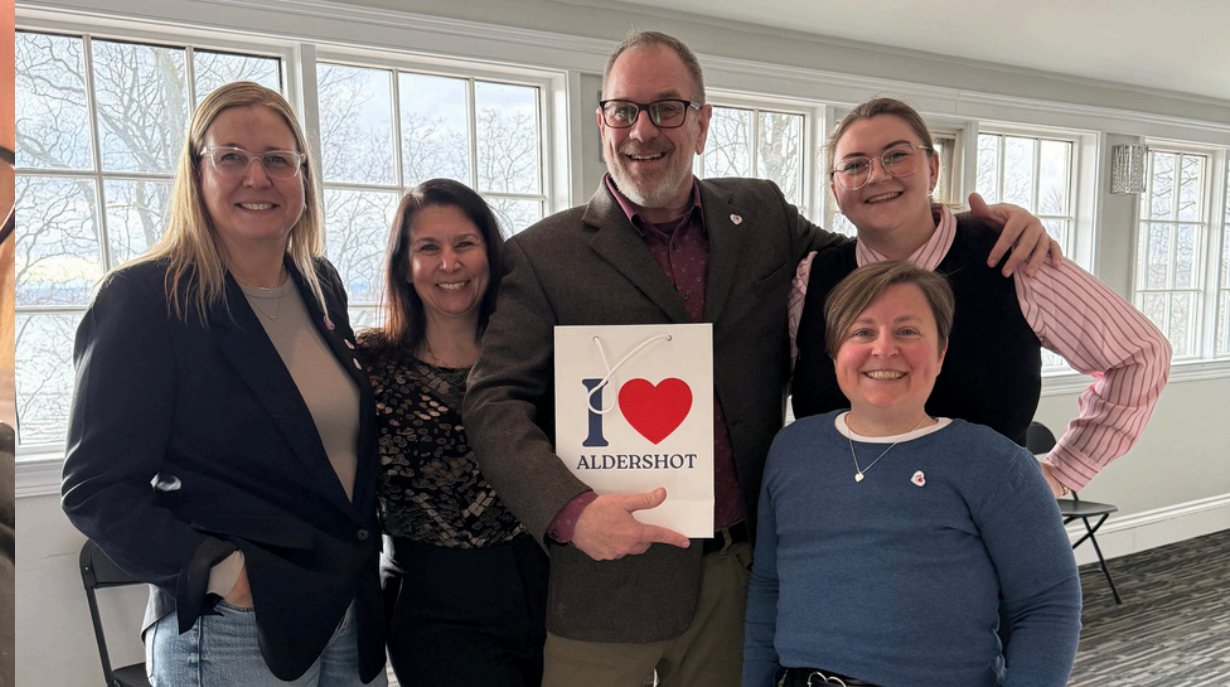

A small ask can create a big win:
local businesses get promoted,
the community gets engaged, and
relationships grow

The Power of the PIN

When a good idea supports the whole community, say yes. Then follow through and help it grow.

Collaboration over
Competition.
